## Profiles

[Henry Kwakye](#) [badkoby](#)

## Summary

Resourceful and forward-thinking Agriculture graduate with hands-on experience in agricultural extension, farm mapping, and cocoa rehabilitation. Proven ability to manage field operations, support sustainable practices, and coordinate with international stakeholders to improve local farming outcomes. Skilled in data collection, farmer profiling, and process documentation. Passionate about integrating technology and data-driven approaches into agriculture to enhance productivity and resilience. Eager to take on new challenges that broaden expertise in agri-tech, data analysis, and climate-smart farming systems.
